Navigating Underland

Underland has been torn apart by the Jabberwocky. It is up to you to help Alice put the pieces back together again.

Discover map pieces as you progress through Underland.

When you collect a map piece, tap the arrow icon, then touch the lighted puzzle piece icon to access the map manipulation mode.

Use your **stylus** to move the map pieces into place.

NOTE: Doors are your access to new levels; but you can't go through if the next map piece isn't in place.

Underland Characters

Use your special powers to help Alice. Hold the **L Button** to toggle on the power user interface.

The White Rabbit – Fast-forward, rewind or pause time using the Rabbit's special powers.

The Caterpillar – Use Absolem's ability to reverse gravity by tapping the up or down icon on the touch screen.

Mad Hatter – Change your perspective on the levels. Take Alice behind the scenes to discover hidden doors by touching the highlighted Hatter icon, then tapping the left icon.

Cheshire Cat – Find hidden objects, or make them vanish, by toggling either the solid or transparent box icons respectively.

Hint: Use your special powers when an exclamation point (!) appears above your character's head.

Underland Villains

Powerful enemies will try to prevent Alice from fulfilling her destiny. Keep them from dragging Alice into the red vortex.

Foot Soldier – Don't underestimate these hand-to-hand brawlers.

Blood Red – Watch out for their wicked charging attacks.

Fortress – They may hide behind shields, but they're not cowards.

Tank – What they lack in speed, they make up for in strength.

Bosses – You'll need all your abilities and wits to defeat these Underworld guardians.

Hint: Be quick. Once Alice is thrown into the portal, you only have a certain amount of time before she disappears.

Collectibles

Each level contains a number of collectibles to help you on your mission.

Recharge – Discover life gauge recharges, special powers, special moves and power recharges after destroying enemies or objects.

Chests – Many levels contain chests in which you will find special upgrades or meter recharges.

Map pieces – Use your abilities to discover map pieces hidden throughout the game.

Unique objects – Discover pieces of the Sacred Armor and the Vorpal Sword that will help Alice fulfill her destiny. The pieces of armor are scattered throughout Underland. The exact location of the sword will reveal itself in time.

Upgrades

Certain collectibles can upgrade your movement and fighting abilities.

Character	***Movement upgrade***	***Power in combat upgrade***
White Rabbit	Double jump	Temporarily slow down the movement of a soldier.
Caterpillar	Stretch horizontally or vertically to help Alice across a gap	Temporarily levitate a soldier then throw the soldier onto the ground.

Mad Hatter	Take Alice by the hand and run very fast for a short distance	Flatten red guards like a sheet of paper!

Life Gauge:

Your life gauge can be seen in the upper left corner of your screen.

All characters share the same life gauge, which starts with 60 points.

When the life gauge reaches zero, your character will experience a period of dizziness.
